# SPECIAL SESSION MAY PROVE TO BE

Is Fair: Prospect Object For Which It Was Called Will Be Dereated BIG STICK DNLY CAN

Question Hanns On the Fate of Bill's Introduced In House and Senate

EFFECT SALE OF BONDS

on both occasioned by the special bes- | Union. sign of the jegislature, the present prosent is that the whole thing may prove n monator farce played out at the expense of the Territory and that the purpose for which the session was call-cal will not be accomplished.

Epon the fare of House Bill No. 22,

which has been regarded as one of the less important measures brought in at the special asseton, depends whether or not the session has been held naedless-by and it opposition to the shift that has developed proves strong enough to kill the measure in all probability it will be found that the holding of the ression was just a needless expenditure

of money.

The single emergency for which the special ression was called was to provide \$200,000 with which the Island of Huwali can teptir damage to roude and bridges done by a storm that swept the Island about a month ago. Providing the appropriation was accomplished simply enough by switching existing appropriations for things not seriously needed now to the new use.

House leaders and administrative ofhad expected that arrangements would have been made on Hawnii to dispose of territorial bonds for \$200,before the session opened; to insure that the money set uside in the switch ed appropriations would be at once available. It was found, however, after the session opened that no steps had been taken on Hawdii to sell the bonds and it was then pointed out that though the appropriation had been made, if ef forts to sell the bonds met the fate that overtook other earlier efforts to sell territorial bonds for various purposes Hawali would get no money. This would mean merely that the whole special session was needless outlay, for the purpose for which it had been would not knive been accomplished.

It was then that House Bill No. 22 was introduced as a big stick by Repnesentative George K. Kawaha and the same bill was brought in in the senate by Senator Bobert Hind. This bill directs that the treasurer of the Territory proceed to sell bonds in the sum of senators. \$200,000 to obtain the funds Hawaii steeters, was \$25,266.65 and of Liberty heads but it carries also the provision that if he is mable to sell them by a \$25,105.00, making a grand total of be saised in the carrent way shall \$83,369.63. An estimate of known is the carrent way and season in the carrent way shall \$83,369.63. be raised in the current year by special scriptions among school officers and tamation. If the bonds are not sold, the bill directs the treasurer to prepare there was a total of more than \$100, with the approval of the Governor an 900 in government scarrities held by estampte of the rate percent at which the teachers and pupils of the public property in the county of Hawnii that schools on March 29, 1918; shall be faxed in peder to yield in 1918 School and Home Gardens

Interests on Hawaii, it is reported, have been hit hard by this measure and strenoous opposition to it has devel-

States Situation Julian Yates of the board of supervisors on Hawaii, who has been representing the Hawati supervisors at the succial session, said yesterday that he had been given to understand that it would be a difficult matter to dispose of the bonds on Hawnii. Banks and financial interests on the Island had taken the position, he said, that all their available fonds for investment had been used in bond purchases for the Volcano road and other territorial bonds, besides purchases of Liberty Lone bonds that had been made,

When the enabling acts were introduced property interests on Hawaii, foreseeing that the bonds could not be disposed of and that heavy immediate taxation was in prespect, before a protest. The bills in both houses are still in the hands of committees after passing first reading and what will happen to them is yet to be

It is asserted, however, that if the big stick is not swung over Hawaii by the passage of the enabling act, insuring that the money needed can be raised one way or another, the whole respion will have been held in vain, for without a lever of some skind to thrust the bonds on to the market, they will remain unsold and Hawaii will not be able to earry out the work, the acimportant purpose of the special session.

## HAWAII SCHOOLS DOING THEIR BIT

Review of Patriotic Effort In Ter-ritorial Institutions of Learning Most Interesting

A general Peview of the wir netivaties of Hawnii's public schools as given in the May number of the Havett Educational Review, just from the press. Insamueli as it is of general interest, the article is reproduced

Early in March, 1918, at reques efine from the National Educational Association, Washington, asking for a report of the work done in the schools of the Terrifory to aid the Nation in After all the work and expense that of all the States and Territories of the

A number of lines of a divities were suggested and a questionneite was prepared, which would allow the depart-ment to tabulate the results and which would make as little extra work for

who were the principals as possible.

With the exception of about a dozen schools, the questionnaires were returned. A few reported no activities, but the vust majority showed that were taking an active part in this time of pational effort.

The letters received with the purationnaires indicate that the schools are doing much better now, even than hoy have done before, and a numbe of schottle, which had done little up to the time of the report, have expres bemselves as determined to make a etter showing. It is of course, quit enerally understood that thus for the maign bas been one of education nd that these various workers are nor able to accomplish much more than bey could at the beginning, because her understand the needs of the

Nation If is an inspiration to see what the otals for the public schools amount to, as a teacher of a single room or t principal of a single school in inclined of think that her part in the preparation of materials and the adding of revernment projects is insignificant But when these various items are prought together, it is found that they make a handsome contribution to the

cause of humanity and liberty. In resiting this report, it must sorne in mind that these records are only to March 29; they do not include the great third Liberty Loan or the second Red Crew drive, nor do they include the sale and purchase of Thr's? Stanges or other work done during the present school term. It is also important to remember that the private shools are not included in this report. Phat thete line been a wonsierful show ing on the part of the student populathis incomplete report.

One haudred and thirty two public schools reported on war securities and school and home gardens. The total several schools not reporting, shows

The total of home and school gardens sum as shall not have been raised by in these 132 schools was 9,692. This large number is made up principally velopment of patriotic spirit among the lence he was

> Oahu and Kauai and from what the writer has seen on the other islands, before has there been such understandit probably represents between seventy ing of the duties and privileges of and 100 acres of land cultivated intensively. Where the products from a force has contributed to this great small individual school garden have been computed on the basis of an acre. it has been found that the result is exceedingly large, sometimes being at ty, are doing. It will be an inspiration high as \$200 or \$300 to the acre. There is no doubt that the contribution to the local food supply has been of great value.

Tin Fail The amount of tin foil reported from eighty-eight schools amounts to 13,878 ounces, or 867.3 pounds, When we think that nearly a half-ton of tin foil. worth at least twenty five cents a pound has been collected, we can see the value of cach school doing even a small part. Shipping Boxes ..

Six mehools made a total of 192 packing boxes for shipping Red Cross supplies to the Front.

in all the lines of setivities followed by the schools, but we might mention one or two that stand out. Among other supplies, there were 528 woolen sweaters, enough to provide sweaters for two complete rifle companies and their officers, or three machine gun companies. There were ever 20,000 handkerebiefs; almost enough for a division; more than 4,000 bandages and surgical drassings, which does not in clude work done by pupils and t a hers at the various Red Cross headquarters. There were nearly 1,000 pairs of sacks and 2,000 wash rags, and nearly 7,000 magazines were collected and sent to the soldiers. A total fist of the activi-

ties will be given below." Several activities undertaken were found to be impractical. For example over 200,000 enucelled postage stamps were collected before it was learned that they could not be used for dyes. About 1,000 trench candles had been made when it was found that it was not advisable to use shipping space for these articles. About a ton of rows capers were collected and sold, but this was found to by a waste of energy, as in many localities they could not be BUSY AMONG MEXICANS disposed of, and the returns war alight compared with the work of collection

and disposal. is a search in the supper homestoday. There had been twenty-five enter-There and Deen twenty-we enterto shall Mexico as a hotbail of anarchy
fainments given up to March 29.

It shoulds "The enemy's money is corning \$2,965.05 for the use of the
stock in Mexico and it is the hiding
place of conspirators," he declared.

Orphaus and other worthy cause.

## KOLOA SCHOOL HELPS AMERICAN RED CROSS Rodiek Stand

Entertainment By Pupils Nets a Neat Sum

To stimulate and arouse enthusiasm for the Red Cross, school children of Kolon, Kanai, took an important part in an entertainment held at the Kolon Hall a sweek ago last Sunday; arranged by Mr. Jacobs it was well attended and was a financial success.

As collection taken during the eve ning netted fifty nine dollars, and a further sum of twenty four dollars was realized from the sale of banquets ht Mrs. Blake and Miss Miller, This made a total of eighty three dollars, which will be used to help swell the Red The following was the program of the evening:

Two plans of movies, ie Word Today," by the by the Kning School children: "The American Creed," the Kolon School; "Columbia, the Gem of the Ocean," by the Kolon School; patriotic address, by John Bush, the veteran principal of the school: by Mrs. Honry Blake; Collection for the Red Cross, four flux of movies, "The Star Spangled Banner," by the Kolon School.

### MAUI SCHOOL PUPILS PURCHASE MANY STAMPS

The children of the public schools of Maui (not counting Molokai or Lanni) had bought up to April 30, a head when Balch stated that John total of \$5,219.91 in War Savings and Fleming, a stockbroker, told him that

There were 4543 pupils and 133 teach-There were 4543 pupils and 133 teach there is not a single doubt in my mind era engaged in this collection, which as to what Shingle said to me and I makes the average savings more than do not think there is any doubt in Skinone dollar per capita

An unexpected feature of the report is that the War Savings Stamps bought is nearly twice that of the Thrift Whereas the Thrift Stamps amount to but \$1887.75, the War Say A number of schools have not reported. Mr. Raymond predicts a much higher showing for the present month.

## GENERAL BLOCKSOM'S AID

Lieut, Chauncey F. Cleveland, L. R. h, who has been aid to General Wisser, will occupy the same position under Brigadier-General A. P. Blocksom, the straight of this matter so as to put rived Monday from Camp Cody, ing around, Deming, New Mexico. Shingle

Fourteen schools onve these twenty five entertainments, netting the magnificent have to testify if subpoensed. sum of almost \$3,000. In the giving of entertainments, we find that six three and one four cutertainments, while six gave one each.

Community Work One hundred and twenty five schools reported doing community work outside of the regular school hours, such as distributing posters and circulars in regard to war activities, holding meetngs to explain the various war project teaching food conservation in the homes, selling Thrift Stamps, seliciting funds for the Red Cross, and in many other ways extending their influence beyond the schools into the adult

community.

The Greatest Value But by far the most valuable work one by the schools has been the of home gardens, as many schools reported their school gardens as a single project carried on by the whole school. It is not possible to give the area unparalleled height, and the Territory inparableled height, and the Territory cavered, but from statistics taken on is unified as never before in a friently competition to serve our Nation. Never citizenship, and I believe that no one public education as have the territorial schools. It has been well worth while to find out what the schools collective to us to again "take stock" as to the progress we are making in this world cause. To those who have failed to live up to the spirit of the times there should come a greater desire to cooperate in this noble work. To those who have responded nobly from the very start, it should be an inspiration to feel that so much has been accom-

## Explination of His Demanded of Shingle

Vigilance Corps Asks Him To Furnish Statement Regarding

Robert W. Shingle, president of the member of the senate of the Hawgiinu Islands was by vote of the Hawaiian ligilauce Corps vesterday noon requested to farnish a written statement consul at Honolulu, who pleaded guilty to the charge of violating the United States neutrality laws.

The vote was taken after the presentation by J. A. Enleh at a statement concerning Mr. Shingle and the testimony he gave, in which a'though protesting his friendship for Mr. Shingle, he said that he believed Shingle placed "personal friendship above his duty to his country"; or the "love of money above his duty to his country". Baich Makes Statement

The whole matter was brought to-Thrift Stamps, says last Friday's Mani Shingle sought him to become a char-News of Walluko. This is shown by acter witness for Rodick, while Mr. a report just made to the savings stamp Shingle had previously denied that he committee by George S. Raymond. | had done so. Fleming told Balch "that gie's mind as to what I said to him.
I will not modify or retract may state

ment I have made to the committee? It was also explained that Mr. Shinhe had not worked for Rochek, and did ings Stamps have a value of \$3332.16, not ask Fleming to testify for Rodick. but on the other hand had merely asked Fleming what he thought of him (Shingle) testifying for Rodick. Mr. his h's written statement presented at vesterday's meeting follows

Shou'd Have Truth There is a contradiction in the statement of Mr. Shingle and Mr. Fleming and we should have the department commander, who are an end, once for all, to the reports go-

> Shingle told the committee that he did not work for Rodick-that he testi fied because he knew that he would

"Fleming says that Shingle was working for Bodiek. Fleming farther schools gave two each, one school gave declares that when he was in San Fran cises, Shingle maked him when he turned to Honolula to tell A. N. Camp bell that he (Shingle) was working for Rodick and for Campbell to keep it quiet.

Plening saw Campbell and when Campbell received Shingle's message that he was working for Rodies, Floming says t'amphell declared that it was more than he would do

"I contend that Shingle's action shows lack of judgement, . . With the world war on already for two and a know where he stood in the matter and nine months after the United of time to know on which side of the

pupils and parents throughout the gle has placed himself in a position whole Territory. Everywhere the where it is apparent one of two things "As a senator of the Territory, Shin ultuenced him in his stand:

1. Placing personal friendship above his duty to his country,
2. Placing the love of money above

his duty to his country, Shingle came to this country a poor boy and has won wealth, honor and position here × -1,21/1/2 Up To Shingle

"I for the life of me could not place muself as a true American in the post o Shingle to meet this issue. He me of my good friends, yet I consider laty to country comes above all clse If Shangle worked for Bodick w should know it; if he benefitted or en tenvered to benefit financially from

the reorgan zation of H. Rackfeld & this community should know it. Shingle says he merely suggested o J. F. Humburg a plan of reorgan

I am a friend of Shingle, but an Learry his vindication on my shoul we should know who at is. Will Prepare Statement | Mr. Shingle when asked last evening

for a statement concering the Vigilance Corps action said: I "I did not get out of the senate until 14 kete in the afternoon and did not have dipportunity to read the story of the Yigilance Corps' action until later on. I notice the Vigilance Corps wants a 27 reply, which I will prepare at once; Kilates, Kolos, Libos, Makaweli, Ma a number of the graduates of Kame 6 sithough their request for such has not na, Wailua and Waimes. ret bean received by ma.
